## INDEPENDENT AUDITORS' REPORT

To the Trustees of  
The City of Jacksonville Beach, Florida  
General Employees' Retirement System  
Honorable Mayor and Members of the City Council  
Jacksonville Beach, Florida

### **Report on the Financial Statements**

We have audited the accompanying statement of fiduciary net position of the City of Jacksonville Beach, Florida, General Employees' Retirement System (the GERS) as of September 30, 2014, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements, which collectively comprise the GERS's basic financial statements, as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the GERS's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the GERS's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## INDEPENDENT AUDITORS' REPORT

*(Concluded)*

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the GERS as of September 30, 2014, and the changes in its financial status for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

As described in Note 1 to the financial statements in 2014, the GERS adopted Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans – An Amendment of GASB Statement No. 27*. Our opinion is not modified with respect to this matter.

As discussed in Note 2, the financial statements present only the GERS fund and do not purport to, and do not, present fairly the financial position of the City of Jacksonville Beach as of September 30, 2014, and the changes in its financial position for the years then ended in conformity with accounting principles generally accepted in the United States.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to this information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Gainesville, Florida

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Jacksonville Beach, Florida, General Employees' Retirement System provides an overview of the financial activities and funding conditions for the fiscal year ended September 30, 2014.

### Financial Highlights

- The plan's total net position held in trust for the payment of benefits and to meet the plan's future obligations to its members and their beneficiaries was \$49,635,814. The plan's position increased by \$2,612,030, a 5.55% increase for the year.
- Employer contributions to the plan decreased \$273,908 over the previous year. The actual employer contributions were \$1,216,994 for 2014, and \$1,490,902 for 2013. The decrease is attributable to a decrease in the actuarially calculated contribution requirement.
- Employee contributions to the plan increased by \$64,557 over the previous year. The actual employee contributions were \$771,553 for 2014, and \$706,996 for 2013. The increase in employee contributions is attributable to an increase in the required employee contribution from 6.45% to 7.95%.
- The net investment income decreased by \$409,773 compared to 2013. The actual results were \$4,697,265 for 2014, and \$5,107,038 for 2013. Although the net investment income decreased from the prior year, the return for the current year still reflects an improved national economic condition.
- Benefit payments and refund of contributions increased by \$1,013,278 compared to 2013. The benefit payments and refund of contributions were \$3,971,423 for 2014, and \$2,958,145 for 2013. The increase is attributable to more employees receiving refunds of their contributions at termination and more employees receiving retirement benefits compared to the previous year.

Pension plan provisions for the General Employees' Retirement System were modified significantly in fiscal year 2014 to improve the Plan's financial sustainability. The modifications included increasing the employee's contribution rate, changing the vesting periods, modifying pensionable pay exclusions, and modifying the Deferred Retirement Option Program (DROP). Details of the changes can be found in the Notes to the Financial Statements beginning on page 12. The funding objective of the General Employees' Retirement System is to meet its long-term pension benefit obligations through employer and employee contributions and investment returns. The net position as a percentage of total pension liability was 84.74% as of September 30, 2014.

### Financial Analysis

The following discussion and analysis are intended to serve as an introduction to the City of Jacksonville Beach, Florida, General Employees' Retirement System financial statements, which are comprised of the Statement of Fiduciary Net Position, the Statement of Changes in Fiduciary Net Position, Notes to Financial Statements, and certain required supplementary information.

The financial statements reflect the activities of the General Employees' pension plan and are reported in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position. These statements are presented on a full accrual basis and reflect all trust activities as incurred.

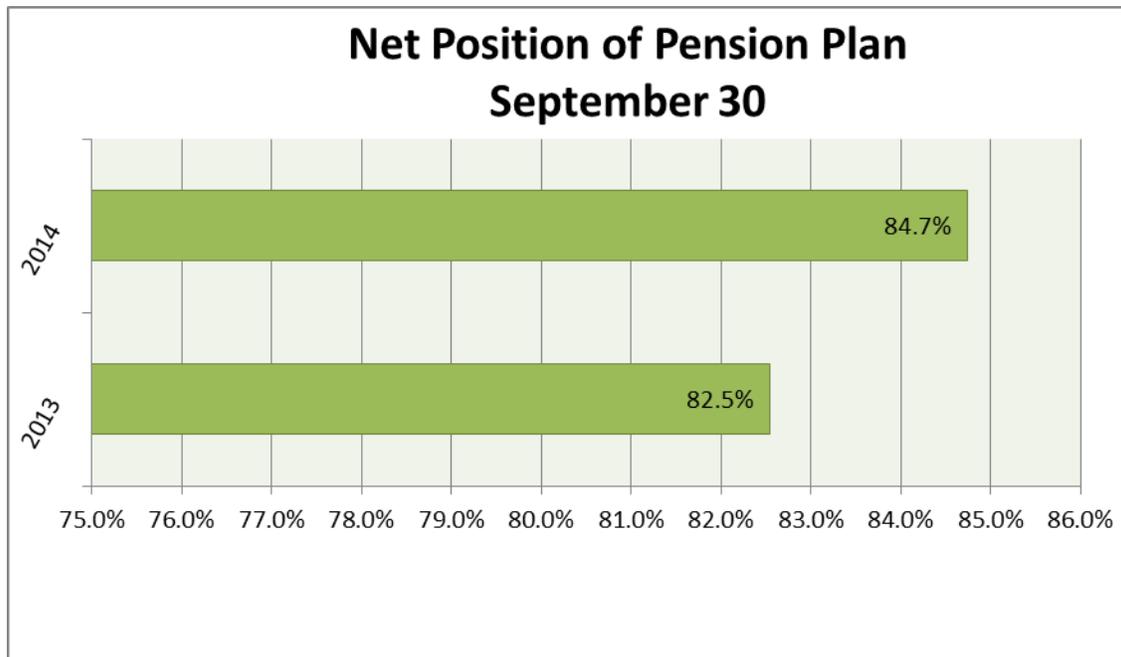

**MANAGEMENT’S DISCUSSION AND ANALYSIS**  
*(Continued)*

**Financial Analysis (Continued)**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Jacksonville Beach’s progress in funding its obligation to provide pension benefits to its employees.

The City implemented GASB 67 as required for the General Employees’ Retirement System. This statement requires additional disclosures in the plan financial statements. The statement also requires the net pension liability to be measured as of the plans’ most recent fiscal year end using methods prescribed by GASB that differ significantly from previous methods. The required disclosures for the General Employees’ Retirement System can be found in the Notes to the financial statements beginning on page 12 and the Required Supplementary Information beginning on page 22.

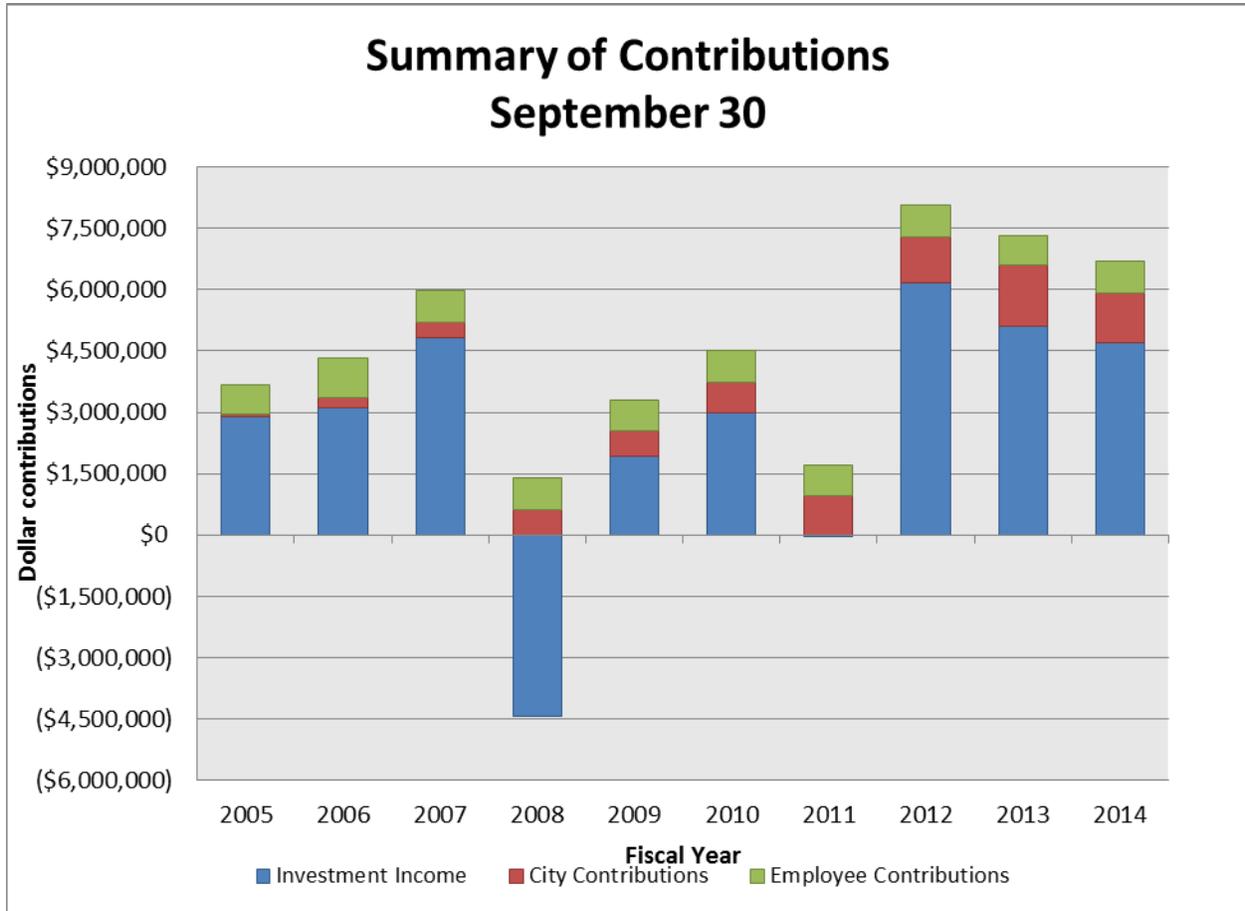

There are several ways to measure the plan’s financial status. One means is to determine the plan’s net position available to pay benefits. This is the difference between total assets and total liabilities. Another way is to refer to the plan’s Net Pension Liability which takes into account the total pension liability and the plan fiduciary net position. The chart below displays the plan fiduciary net position as a percentage of total pension liability for the past two years. Only two years are available due to changes in reporting performed under GASB 67.

**MANAGEMENT’S DISCUSSION AND ANALYSIS**  
*(Continued)*

**Financial Analysis (Continued)**

The funding objective of the Retirement System is to establish and receive contributions (expressed as a percent of active member payroll) which should remain level from year-to-year and not have to be increased for future generations of citizens in the absence of benefit improvements. The Retirement System is supported by member contributions, City contributions, and investment income from the Retirement System assets as displayed on the chart below.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
*(Continued)*

**Financial Analysis (Continued)**

Actuarial differences between actual and assumed investment return are phased-in over a closed four-year period. Therefore, during periods when investment performance exceeds the assumed rate, asset values will tend to be less than market value. Conversely, during periods when investment performance is less than the assumed rate, valuation assets will tend to be greater than market value. As of October 1, 2013, the date of the last actuarial valuation, the plan had a market value of \$47,023,784 and a funding value of \$45,066,035 as shown in the chart below.

**Plan Rates of Return**

<u>Plan Year Ended 9-30</u>	<u>Market Value</u>	<u>Market Rate of Return</u>	<u>Funding Value</u>	<u>Funding Rate of Return</u>
2004	\$ 32,357,874	7.0%	\$ 33,673,551	1.2%
2005	34,345,440	9.0%	34,444,703	5.0%
2006	36,905,841	9.2%	36,643,561	8.1%
2007	41,109,401	13.2%	39,423,857	9.4%
2008	36,348,335	(10.8)%	40,974,530	4.8%
2009	37,248,523	5.4%	41,537,752	3.9%
2010	39,014,957	8.2%	41,770,590	3.6%
2011	37,834,361	(0.1)%	40,808,666	0.4%
2012	42,759,671	16.6%	42,287,997	6.1%
2013	47,023,784	12.1%	45,066,035	8.6%

The Statement of Fiduciary Net Position is a snapshot of account balances at year-end. It indicates the assets available for future payments to retirees and any current liabilities that are owed at this time.

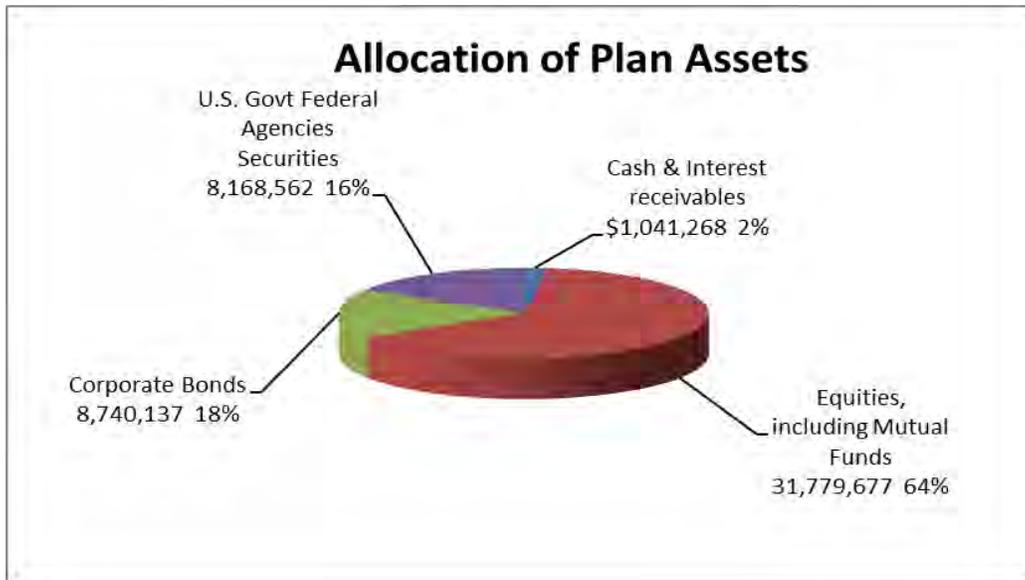

**Fiduciary Net Position as of September 30**

	<u>2014</u>	<u>2013</u>	<u>Increase/ (Decrease)</u>
Cash and Short-term Investments	\$ 948,990	\$ 1,082,622	\$ (133,632)
Interest Receivable	92,278	91,855	423
Investments	48,688,376	45,863,155	2,825,221
<b>Total Assets</b>	<u>49,729,644</u>	<u>47,037,632</u>	<u>2,692,012</u>
Refunds Payable and Other	93,830	13,848	79,982
<b>Total Liabilities</b>	<u>93,830</u>	<u>13,848</u>	<u>79,982</u>
<b>Net Position Restricted for Pension</b>	<u>\$ 49,635,814</u>	<u>\$ 47,023,784</u>	<u>\$ 2,612,030</u>

The total net position of the General Employees' pension plan as of September 30, 2014, was \$49,635,814. The allocation of the plan's total assets as of September 30, 2014, is shown on the pie chart on the following page.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
*(Continued)*

**Financial Analysis (Continued)**

Revenues essential to funding the plan are obtained from member contributions, City contributions and investment income from the retirement system assets. For the plan year ended September 30, 2014, plan participants were required to pay 7.95% (6.45% prior to the pension plan provisions described earlier) of their annual pensionable salary to the pension plan. The City makes periodic contributions totaling 100% of the annual actuarially determined amount to the plan.

The Statement of Changes in Fiduciary Net Position provides a view of current year additions to and deductions from the plan net position. The sum of net investment earnings and contributions, exceeded deductions resulting in an overall 5.55% increase in plan net position for the year. Earnings or losses on investments are reported net of investment expenses. The following table shows a comparative summary of the changes in net position and reflects the plan's activities for the fiscal years ended September 30:

**Changes in Fiduciary Net Position as of September 30**

	<u>2014</u>	<u>2013</u>	<u>Increase/ (Decrease)</u>	<u>Percentage Change</u>
<b>Additions:</b>				
Contributions	\$ 1,988,547	\$ 2,197,898	\$ (209,351)	-9.52%
Net Investment Earnings	4,697,265	5,107,038	(409,773)	-8.02%
Transfers	1,732,131	1,803,576	(71,445)	-3.96%
Total Additions, Net	<u>8,417,943</u>	<u>9,108,512</u>	<u>(690,569)</u>	-7.58%
<b>Deductions:</b>				
Benefits and Refunds	3,971,423	2,958,145	1,013,278	34.25%
Administrative Expenses	102,359	82,678	19,681	23.80%
Transfers	1,732,131	1,803,576	(71,445)	-3.96%
Total Deductions	<u>5,805,913</u>	<u>4,844,399</u>	<u>961,514</u>	19.85%
Change in Net Position	2,612,030	4,264,113	(1,652,083)	-38.74%
Beginning of Year Net Position	<u>47,023,784</u>	<u>42,759,671</u>	<u>4,264,113</u>	9.97%
<b>End of Year Net Position</b>	<u>\$ 49,635,814</u>	<u>\$ 47,023,784</u>	<u>\$ 2,612,030</u>	5.55%

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
(Continued)

**Financial Analysis (Concluded)**

The plan's investment earnings result from market gains and losses on investments during the year as well as dividend and interest earnings.

**Additions to the Plan Net Position**

The monies to pay benefits are accumulated from the contributions made from employers, employees, and income generated from the plan's investments. Earnings or losses on investments are reported net of investment expenses.

	<u>2014</u>	<u>2013</u>	<u>Increase/ (Decrease)</u>
<b>Additions:</b>			
Employee Contributions	\$ 771,553	\$ 706,996	\$ 64,557
Employer Contributions	1,216,994	1,490,902	(273,908)
Net Investment Income	4,697,265	5,107,038	(409,773)
Transfers In	<u>1,732,131</u>	<u>1,803,576</u>	<u>(71,445)</u>
<b>Total Additions</b>	<u>\$ 8,417,943</u>	<u>\$ 9,108,512</u>	<u>\$ (690,569)</u>

**Deductions from the Plan Net Position**

The plan provides a lifetime pension benefit to its retired members, as well as survivor, and disability benefits. Annual expenses to the plan include retirement benefits, DROP distributions, refunds of employee contributions, and administrative expenses.

	<u>2014</u>	<u>2013</u>	<u>Increase/ (Decrease)</u>
<b>Deductions:</b>			
Benefits	\$ 3,669,967	\$ 2,902,166	\$ 767,801
Refund of Contributions	301,456	55,979	245,477
Administrative Expense	102,359	82,678	19,681
Transfers Out	<u>1,732,131</u>	<u>1,803,576</u>	<u>(71,445)</u>
<b>Total Deductions</b>	<u>\$ 5,805,913</u>	<u>\$ 4,844,399</u>	<u>\$ 961,514</u>

The benefit payments are payments to retirees, their beneficiaries (if the retiree is deceased) and new retirees during the period. The refund of contribution amounts are refunds of employee contributions plus interest distributed to terminated employees who are not vested or who are vested but elect to not receive plan benefits. Administrative expense includes all expenses necessary to administer the retirement plan. Transfers represent amounts moved among the three reserve accounts: the retirement reserve, members' savings reserve, and DROP reserve.

**Notes to Financial Statements and Required Supplementary Information**

Notes to financial statements provide additional information that is essential to a full understanding of the data provided. They begin on page 12 of this report.

**MANAGEMENT’S DISCUSSION AND ANALYSIS**  
*(Concluded)*

**Notes to Financial Statements and Required Supplementary Information (Concluded)**

The Governmental Accounting Standards Board (GASB) in Statement No. 67 requires several schedules of historical trend information to be presented as required supplementary information immediately after the notes to the financial statements. The required schedules are: (a) a schedule of changes in the net pension liability and related ratios multi-year that presents the beginning and ending balances of the total pension liability, the pension plan’s fiduciary net position, the net pension liability and the effects on those items; (b) a schedule of net pension liability multi-year; (c) a schedule of the City’s contributions that identifies whether the information relates to employers, nonemployers or both; and (d) a schedule of investment returns that provides information about the annual money-weighted rate of return on pension plan investments.

These schedules contain information pertaining to the City of Jacksonville Beach, Florida, General Employees’ Retirement System’s actuarial methods and assumptions including data on the investment returns of the plan. They can be found on pages 22-27.

**Plan Membership**

The table below reflects the plan membership as of September 30 for active participants, retirees, beneficiaries, disabled members, DROP members, and terminated vested members:

	<u>9/30/14</u>	<u>9/30/13</u>	<u>Change</u>
Vested	138	148	(10)
Nonvested	81	65	16
<b>Total Active Participants</b>	<u>219</u>	<u>213</u>	<u>6</u>
Retirees Receiving Benefits	129	126	3
Beneficiaries Receiving Benefits	28	22	6
Disability Benefits	5	5	0
DROP Members	19	17	2
<b>Total Receiving Benefits</b>	<u>181</u>	<u>170</u>	<u>11</u>
Terminated Vested Members	16	16	0
<b>Total Members Currently Receiving Benefits and Terminated Employees Entitled to Benefits, But Not Yet Receiving Them</b>	<u>197</u>	<u>186</u>	<u>11</u>

**Funding Status**

Of primary concern to most pension plan participants is the amount of money available to pay benefits. Historically, defined benefit pension plans have been under-funded when the employer failed to make annual actuarially required contributions to the plan. The City’s defined benefit pension plan has been subject to the minimum funding standards since the adoption of the *Florida Protection of Public Employee Retirement Benefits Act* (Part VII of Chapter 112, Florida Statutes) in 1980. Accordingly, the City has funded the actuarially determined contribution for each year as required. The Net Pension Liability (NPL) for the year ended September 30, 2014 is \$8,936,136.

**Requests for Information**

The financial report is designed to provide users with an overview of the plan’s finances and the prudent exercise of the Board’s oversight. Questions concerning this report should be addressed to the City’s Finance Officer, 11 North Third Street, Jacksonville Beach, Florida 32250.

**NOTES TO FINANCIAL STATEMENTS  
 SEPTEMBER 30, 2014  
 CITY OF JACKSONVILLE BEACH, FLORIDA  
 GENERAL EMPLOYEES' RETIREMENT SYSTEM**

**Note 1 - Description of Plan**

**Reporting Entity**

The City of Jacksonville Beach, Florida, General Employees' Retirement System (the GERS) was formed on April 1, 2000, as a result of amendments to the Florida Statutes. Chapter 175.061 governing fire fighters' pensions and Chapter 185.05 governing police officers' pensions were amended to require separate pension plans for each of these groups of employees. On March 31, 2000, the predecessor pension plan (the Public Employees' Retirement System) ceased operations and its assets, liabilities, and fund balance were divided among three distinct pension plans:

- General Employees' Retirement System
- Police Officers' Retirement System
- Fire Fighters' Retirement System

**Plan Description**

Substantially, all full-time employees of the City of Jacksonville Beach, Florida, (the City) not covered by the Police Officers' Retirement System or the Fire Fighters' Retirement System are covered by the City's General Employees' Retirement System (GERS).

The GERS is a single-employer, defined benefit pension plan, and as it relates to general employees is the successor entity for the plan that was established by the City on November 1, 1951, in accordance with a State of Florida legislative act which amended Chapter 27-643, Laws of Florida, 1951. Although the GERS presents separate financial statements, it is included (reported as a pension trust fund) in the City's financial reporting entity. The GERS is administered by a Board of Trustees comprised of two members of City Council, two members of the GERS elected by the membership, and a fifth member elected by the other four board members.

As of October 1, 2013 (date of the latest annual actuarial valuation), employee membership data related to the pension plan were:

Inactive Plan Members or their Beneficiaries Currently	
Receiving Benefits (Including DROP Participants)	170
Inactive Plan Members Entitled to Benefits,	
But Not Yet Receiving Them	16
Active Plan Members	213

The pension plan provides retirement benefits, deferred allowances, and death and disability benefits. The plan assets are available to pay the general employees. The Plan was amended by Ordinance 2005-7906 to exclude from membership in the GERS, those part-time employees receiving a normal retirement pension from the City of Jacksonville Beach General Employee Retirement System, and to permit continued payment of said pension benefits while employed.

**Note 1 - Description of Plan (Continued)**

**Plan Description (Continued)**

Pension plan provisions for the GERS were modified significantly in fiscal year 2014. The modifications included increasing the employee's contribution rate, changing the vesting periods, modifying pensionable pay exclusions, and modifying the Deferred Retirement Option Program (DROP). The chart below provides a comparison of the pension plan provisions that occurred in fiscal year 2014. In addition, the paragraphs proceeding the chart provide a detailed description of the changes.

**SUMMARY COMPARISON OF PENSION PROVISIONS**

<b>BENEFIT</b>	<b>BEFORE PENSION PLAN REVISIONS</b>	<b>CURRENT (AMENDED BY ORDINANCE 2013-8035)</b>
Benefit Formula	2.5% x final avg. comp. x service (75% maximum)	2.5% x final avg. comp. x service (\$90,000 or 75% maximum, whichever is less)
Normal Retirement Date	Age 60 with 5 years of service or 30 years of service regardless of age	Age 62 with 10 years of service or Age 55 with 30 years of service
Early Retirement	After 20 years of service – reduced benefit	After 20 years of service – reduced benefit <i>(no change)</i>
Pensionable Pay	Base pay + overtime + longevity + shift diff. + ed. incentive pay, but excluding leave payouts and all other compensation	Base pay + longevity, but <u>excluding overtime, shift diff, incentive pay,</u> leave payouts and all other compensation
Vesting	5 Years Deferred benefit begins at age 60	10 years Deferred benefit begins at: Age 55 with 30 years of service; or Age 62 with 10 years of service
Disability	42% min. – duty 25% min. – non-duty	42% min. – duty 25% min. – non-duty <i>(no change)</i>
DROP	3 year DROP 3.5% interest	Replace with 3 year Back DROP 3% interest
Employee Contribution	6.45%	7.95%

**GENERAL EMPLOYEES' RETIREMENT SYSTEM**  
*(Continued)*

**Note 1 - Description of Plan (Continued)**

**Plan Description (Continued)**

- **Normal Retirement**—Plan participants who retired prior to October 1, 1990, are entitled to pension payments for the remainder of their lives equal to 2% of their final average compensation times the number of years they were employed by the City. The final average compensation is the highest five out of last ten years of employment.

Compensation includes base pay, longevity pay, overtime, and cost-of-living allowances. The maximum annual pension payment to these participants is 60% of their final five year average compensation.

Plan participants who retired after September 30, 1990 but before November 25, 2013, are entitled to pension payments for the remainder of their lives equal to 2.5% of their final average compensation times the number of years they were employed by the City. The maximum annual pension benefit to these employees is 75% of their final average compensation.

Plan participants who retire on or after November 25, 2013, are entitled to payments for the remainder of their lives equal to 2.5% of their final average compensation times the number of years they were employed by the City up to a maximum of \$90,000 or 90%, whichever is less. Accrued benefits in excess of the maximum amount are retained by the plan. Compensation includes base pay, and longevity pay. Compensation excludes overtime, shift differentials, incentive pay, leave payouts and all other compensation.

Eligibility requirements for normal retirement are as follows for participants with ten years of service on November 25, 2013: 30 years of service regardless of age, or age 60 with five more years of service.

Eligibility requirements for normal retirement are as follows for participants with less than ten years of service on November 25, 2013: Age 55 with 30 or more years of service, or age 62 with ten or more years of service. There is no mandatory retirement age.

The normal form of benefit is a benefit payable for the life of the retired member. Optional benefit forms are available on an actuarial equivalent basis.

- **Early Retirement**—Early Retirement is available to all plan participants after 20 years of service with a reduced benefit.
- **Non-Duty Disability Retirement**—Disability retirement is available to plan participants that have attained at least ten years of service. Until the plan participant reaches normal retirement age, the minimum non-duty disability is 25% of the participants' final average compensation.
- **Duty Disability Retirement**—The ten year service requirement is waived if the retirement is caused by a duty-related disability. The minimum duty disability is 50% of the participants' final average compensation. At regular retirement age, the participant has the option to have the benefit recomputed as a normal retirement with additional service credit granted from the date of retirement to the later of normal retirement age or five years after date of disability. The minimum benefit is not less than 42% of the participants' final average compensation.

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**  
**CITY OF JACKSONVILLE BEACH, FLORIDA**  
**GENERAL EMPLOYEES' RETIREMENT SYSTEM**  
*(Continued)*

**Note 1 - Description of Plan (Continued)**

**Plan Description (Concluded)**

- **Non-Duty Death Before Retirement**—Non-duty death benefits are available at 100% of the plan participant's normal retirement benefit provided the plan participant attained ten or more years of service.
  
- **Duty Death Before Retirement**—The ten year service requirement is waived if the death is duty-related. The surviving spouse is entitled to receive 100% of the participants' normal retirement benefit. The minimum benefit is not less than 35% of the participants' final average compensation.
  
- **Deferred Retirement Option Program (DROP)**—An eligible participant of the retirement system who meets the requirements of retirement may elect to participate by deferring receipt of retirement benefits while continuing employment with the City. The deferred monthly benefits shall accrue in the reserve for pension payments fund on behalf of the participant. Annual interest is compounded monthly less a service fee, for the specified period of DROP participation not to exceed 36 consecutive months. Upon termination from DROP, the participant shall receive all accrued DROP benefits either as a lump sum, direct rollover, or partial lump sum. The DROP was closed to new members on November 25, 2013.
  
- **Backwards Deferred Retirement Option Program (BackDROP)**—A participant of the retirement system who meets the normal retirement requirements on or after November 25, 2013, is eligible for BackDROP. The participant may elect a BackDROP period for the number of months employed beyond their normal retirement date, up to a maximum of three years. Benefits are computed as if the participant chose to terminate on his or her normal retirement date, using credited service and final average compensation at the normal retirement date. In addition to the monthly pension, there will be a lump-sum payment. The lump-sum payment will be computed as if the monthly benefits had started and were accumulated in an account and credited with 3% interest, compounded annually during the period between the date chosen and the date of retirement.

**Funding Policy**

Prior to November 25, 2013, plan participants of the City were required to pay 6.45% of their annual compensation to the pension plan. Beginning November 25, 2013, plan participants of the City are required to pay 7.95% of their annual compensation to the pension plan. The payments are deducted from the employees' wages or salary and remitted by the City to the GERS at the end of each pay period. If an employee leaves the employment of the City before he or she is vested (attaining five years of service prior to November 25, 2013, or attaining ten years of services on or after November 25, 2013), the accumulated contributions plus earned interest are refunded to the employee or the employee's designated beneficiary. If an employee leaves the employment of the City after becoming vested, but before attaining retirement age, the employee or the employee's designated beneficiary has the option of being refunded the accumulated contributions plus earned interest or keeping the funds in the plan and receiving benefits under the plan upon reaching retirement age.

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**  
**CITY OF JACKSONVILLE BEACH, FLORIDA**  
**GENERAL EMPLOYEES' RETIREMENT SYSTEM**  
*(Continued)*

**Note 1 - Description of Plan (Concluded)**

**Funding Policy (Concluded)**

The City makes periodic contributions totaling a minimum of 100% of the annual actuarially determined amount to the pension plan. For the year ended September 30, 2014, the actuarially determined contribution amount as determined in a roll-forward of the October 1, 2012 actuarial valuation, was \$1,216,994 and the actual contribution was \$1,216,994.

The actuarial determined contribution amounts have been adjusted for the impact of changes in employee contribution percentage as discussed above. For the year ended September 30, 2014, the total City's covered payroll (general employees only) amounted to \$10,114,150. Covered payroll refers to all compensation paid by the City to active employees covered by the GERS on which contributions to the pension plan are based. Total payroll for general employees (covered and uncovered) for the year ended September 30, 2014, was \$12,943,665.

**Note 2 - Summary of Significant Accounting Policies and Plan Position Matters**

**Basis of Accounting**

The GERS financial statements are prepared on the accrual basis of accounting. Contributions from the City and the City's employees are recognized as revenue in the period in which employees provide services to the City. Interest and dividend income is recognized when earned by the pension plan. Realized gains and losses on the sale of investments held by the pension plan are recognized when incurred. Net appreciation in the fair value of investments held by the pension plan is recorded as an increase to investment income based on the valuation of investments as of the date of the statement of plan net position available for benefits. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

**Adoption of New Accounting Standard**

During the fiscal year ending September 30, 2014, GERS adopted GASB Statement No. 67, *Financial Reporting for Pension Plans – An amendment of GASB Statement No. 27*. The objective of this statement is to improve financial reporting related to pension plans.

**Investments**

Investments in securities are reported at fair value. Corporate bond securities are assigned a value based on yields currently available on securities of issuers with credit ratings similar to the securities held by the pension plan. Unrestricted capital stock securities are assigned a value based on quoted market prices. There are no investments in, loans to, or leases with parties related to the pension plan.

**Fund Balance Reserves**

Three separate fund balance reserves are required to separately account for the net plan assets available for plan benefits. Investment income is allocated to the members' savings and DROP reserve based on a predetermined formula. The remainder of net investment income (realized gains and appreciation of fair value of investments, plus interest and dividends, net of administrative costs) is allocated to the retirement reserve. The purpose of these three reserve fund balances and the formula used to allocate net investment income is summarized as follows:

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**  
**CITY OF JACKSONVILLE BEACH, FLORIDA**  
**GENERAL EMPLOYEES' RETIREMENT SYSTEM**  
*(Continued)*

**Note 2 - Summary of Significant Accounting Policies and Plan Position Matters (Concluded)**

**Fund Balance Reserves (Concluded)**

- **Retirement Reserve**—this reserve accounts for all City contributions, transfers from the members' savings reserves and pension benefit payments made to retired employees (transfers in are assumed to be made as of the beginning of the year). The amount of net investment income recorded into this reserve is the balance remaining after allocations are made to both the members' savings reserve and DROP reserve.
- **Members' Savings Reserve**—this reserve includes all employee contributions. Investment income is allocated to this reserve based on 3.5% of the average reserve balance outstanding during the year. Transfers are made from this reserve to the retirement reserve as employees retire during the year. Termination refunds are remitted back to the employee, or maintained in this reserve at the option of the terminated employee depending on the employee's total years of service.
- **DROP Reserve**—the Deferred Retirement Option Program (DROP) was established in 1998. This program allows participants eligible for regular retirement to continue employment for a maximum of three years, and receive retirement benefits during this period. Employee contributions to the plan are discontinued, and the retirement benefits are transferred to the DROP reserve monthly, payable in full upon retirement. Investment income is allocated to this reserve based on rates determined by the Pension Board. This program was closed to new entrants as of November 25, 2013.

**Note 3 - Cash and Investments**

Florida Statutes and City ordinances authorize the GERS to invest in obligations of the United States, in obligations guaranteed as to principal and interest by the United States and in bonds, stocks or other evidences of indebtedness issued or guaranteed by a corporation organized under the laws of the United States provided that the corporation is listed on one or more of the recognized national stock exchanges and holds a rating of the three highest classifications by a major rating service. Corporate fixed income securities must hold a rating of A or higher by a Nationally Recognized Statistical Rating Organization (Moody's, Standard & Poor's, Fitch).

Following is a summary of the investments and maturities held by the GERS at September 30, 2014:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1-5	6-10	More Than 10
Mutual Fund (Equities)	\$ 31,779,677	\$31,779,677			
U.S. Government Securities	5,449,534		\$ 4,823,906		\$ 625,628
Federal Agency Securities:					
Federal Home Loan Mort. Corp.	862,645	204,852	28,223	\$ 53,624	575,946
Federal Farm Credit Bank	412,308	412,308			
Federal National Mort. Assoc.	1,444,075		31,632	124,520	1,287,923
Corporate Bonds	8,740,137		3,719,139	3,761,735	1,259,263
<b>Total</b>	<b>\$ 48,688,376</b>	<b>\$32,396,837</b>	<b>\$ 8,602,900</b>	<b>\$ 3,939,879</b>	<b>\$ 3,748,760</b>

**Note 3 - Cash and Investments (Continued)**

Credit quality distribution for the GERS' investments with credit exposure as a percentage of the total pension investment is as follows:

<u>Investment Type</u>	<u>Moody's Credit Rating</u>	<u>Percent of Total</u>
Mutual Fund (Equities)	Unrated	65.40%
Federal Agency Securities	Aaa	5.56%
U.S. Government Securities	Aaa	11.15%
Corporate Bonds	A1	3.87%
Corporate Bonds	A2	3.32%
Corporate Bonds	A3	4.39%
Corporate Bonds	Aa3	.57%
Corporate Bonds	NR*	5.74%

\*Bonds were rated A- or better by Fitch

Cash and money market funds totaling \$948,990 at September 30, 2014, are classified as cash and short-term investments on the accompanying statement of fiduciary net position because they are available for immediate withdrawal or transfer.

**Risk Disclosure**

The plan's investment policies do not address its exposure to interest rate changes, custodial credit risk, or quality credit risk. The following items discuss the pension funds' exposure to various risks of their investment portfolios:

- **Interest Rate Risk**—the City's pension funds limit their risk by averaging investment maturities at approximately three to five years.
- **Custodial Credit Risk**—for an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the fund will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The fund generally utilizes third party custodians to help manage custodial credit risk.
- **Concentration of Credit Risk**—the pension funds' investment policies and practices require investments to be diversified to the extent practicable to control the risk of loss resulting from overconcentration of assets in a specific maturity, issuer, instrument, dealer, or bank through which financial instruments are purchased and sold.

**Identification of Investments**

- **Equities**—Investments in equity securities must be traded on the national exchange or electronic network. No more than 5% of the Plan's assets, at the time of purchase, may be invested in the common stock, capital stock or convertible stock of any one issuing company. In addition, the aggregate investment in any one company shall not exceed 5% of the outstanding capital stock of that company. No more than 10% of the Plan's assets, at the time of purchase, may be invested in the shares of companies that have been publicly traded for less than one year.

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**  
**CITY OF JACKSONVILLE BEACH, FLORIDA**  
**GENERAL EMPLOYEES' RETIREMENT SYSTEM**  
*(Continued)*

**Note 3 - Cash and Investments (Concluded)**

**Identification of Investments (Concluded)**

- **Fixed Income**—Investments in corporate fixed income securities shall be limited to those securities rated “A” (or its equivalent) or higher by a Nationally Recognized Statistical Rating Organization (NRSRO). The maximum maturity of any single security in the Plan’s fixed income portfolio shall not exceed 30 years, and the average effective duration of the portfolio shall not exceed that of the benchmark index by more than 20%. No more than 10% of the Plan’s assets, at the time of purchase, shall be invested in securities of any single corporate issuer. Investments in Collateralized Mortgage Obligations (CMO) shall be limited to 10% of the market value of the Plan’s fixed income portfolio and shall be restricted to those issues that are currently paying interest, receiving principal pay-downs and do not contain leverage.
  
- **Real Estate**—All real estate investments shall be managed by experienced and qualified professional real property investment managers. The Board will seek to diversify its real estate investment by property type (residential, industrial, office, retail, timberland, etc.) and property location (geographic region).

The following is the Board’s adopted asset allocation policy as of September 30, 2014:

<u>Asset Class</u>	<u>Target Allocation</u>
Domestic Equity	50%
International Equity	10%
Fixed Income	35%
Real Estate	5%
<b>Total</b>	<u>100%</u>

**Concentration**

The plan did not hold investments in any one organization that represents 5% or more of the Pension Plan’s fiduciary net position.

**Rate of Return**

For the year ended September 30, 2014, the annual money-weighted rate of return on plan investments, net of plan investment expense, was 10.22%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**Note 4 - Pension Cost**

**Annual Pension Cost**

The pension cost for the year ended September 30, 2014, was \$1,216,994 (actual contribution-City share). The pension cost for the 2014 fiscal year was determined as part of the October 1, 2012 roll-forward actuarial valuation using the entry age actuarial cost method.

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**  
**CITY OF JACKSONVILLE BEACH, FLORIDA**  
**GENERAL EMPLOYEES' RETIREMENT SYSTEM**  
*(Continued)*

**Note 4 - Pension Cost (Concluded)**

**Annual Pension Cost (Concluded)**

The actuarial assumptions in the October 1, 2012, valuation included: (a) 8% investment rate of return (includes 3.5% inflation and 4.5% real investment return); and (b) projected salary increases ranging from 4.5% to 12.1% per year. The assumptions did not include post-retirement benefit increases. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a four-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at October 1, 2012, was four to 25 years.

**Note 5 - Net Pension Liability**

The components of the net pension liability on September 30, 2014, were as follows:

Total Pension Liability	\$ 58,571,949
Plan Fiduciary Net Position	<u>(49,635,813)</u>
Net Pension Liability	<u>\$ 8,936,136</u>
Plan Fiduciary Net Position as a Percentage of Total Pension Liability	84.74%

**Actuarial Assumptions**

The total pension liability was determined by an actuarial valuation as of October 1, 2013, updated to September 30, 2014, using the following actuarial assumptions applied to all measurement periods.

Inflation	3.5%
Salary Increases	4.5% - 12.1% (Including Inflation)
Investment Rate of Return	8.0%

Mortality rates were based on the 1994 Group Annuity Mortality Tables with no projection for men and women. This table was first used for the October 1, 2002 valuation. No margin for future mortality improvements is included in these tables.

The long-term expected rate of return on pension plan investments was determined using building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2014, are summarized below:

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**  
**CITY OF JACKSONVILLE BEACH, FLORIDA**  
**GENERAL EMPLOYEES' RETIREMENT SYSTEM**  
*(Concluded)*

**Note 5 - Net Pension Liability (Concluded)**

**Actuarial Assumptions (Concluded)**

<u>Asset Class</u>	<u>Long-term Expected Rate of Return</u>
Domestic Equity	10%
International Equity	11%
Fixed Income	11%
Real Estate	7%
Cash	0%

**Discount Rate**

The discount rate used to measure the total pension liability was 8.0%. The single discount rate (SDR) was based on the expected rate of return on pension plan investments of 8.0% and municipal bond rate of 4.11% resulting in a single discount rate of 8.0%. The projection of cash flows used to determine the single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rated equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The single discount rate reflects the long-term expected rate of return on pension plan investments and tax exempt municipal bond rate based on the Bond Buyer 20-bond Index of general obligation bonds with an average AA credit rating as of the measurement date.

The table below provides the sensitivity of the net pension liability to changes in the discount rate. The table represents the plan's net pension liability, if it were calculated using a single discount rate that is 1-percentage point lower or 1-percentage point higher than the single discount rate.

**Sensitivity of Net Pension Liability to the  
Single Discount Rate Assumption**

<u>1% Decrease</u>	<u>Current Discount Rate</u>	<u>1% Increase</u>
<u>7.00%</u>	<u>8.00%</u>	<u>9.00%</u>
\$ 15,075,659	\$ 8,936,135	\$ 3,689,987

The total pension liability information is based on the actuarial valuation performed October 1, 2013. The total pension liability was rolled-forward from the valuation date to the plan year ending September 30, 2014, using generally accepted actuarial principles.

2014	\$ 1,216,994	\$ 1,216,994	\$ 0	\$ 10,622,900	11.46%

**Notes to Schedule of Contributions**

Valuation Date: October 1, 2013  
Notes: Actuarially determined contribution rates are calculated as of October 1, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

**Methods and Assumptions Used to Actuarially Determine Contribution Rates**

Actuarial Cost Method: Entry Age Normal  
Amortization Method: Level Percentage of Payroll, Closed  
Remaining Amortization Period: 3-25 Years  
Asset Valuation Method: 4 Year Smoothed Market  
Inflation: 3.50%  
Salary Increases: 4.50% to 12.10% Including Inflation  
Investment Rate of Return: 8.00%  
Retirement Age: Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2002 valuation.  
Mortality: The 1994 Group Annuity Mortality Tables, set back 0 years for men and 0 years for women. This table was first used for the October 1, 2002 valuation. No margin for future mortality improvements is included in these tables.

**Other Information**

Notes: Changes in benefits are displayed on page 13 (Summary Comparison of Pension Provisions).
